Student ID: 1213236763

Email: spande27@asu.edu

This folder contains all the files for assignment 2. The following features have been added to the browser created in assignment 1.

1. Add a simple calculator in your Web browser, with floating point +, -, *, and / operations. No service call is required in this question.

2. Add text encryption decryption function in your browser. Follow the example in text 3.6.3. However, instead of using the localhost service, you must use the service in the ASU Repository at: http://neptune.fulton.ad.asu.edu/WSRepository/Services/EncryptionWcf/Service.svc
